Gillen Supported Biden Backed Legislation That Would Allow Thousands Of Migrants Across The Border Every Day

In A May 2024 Op-Ed, Gillen Referred To The Senate Border Security Deal As A “Promising Development.” “The Senate’s bipartisan border security deal was a promising development, which laid the groundwork for meaningful reform. The bill proposed new measures to secure the border, streamline the asylum process, and end the broad release of migrants into communities. This initiative was crafted by Democrats and Republicans, and garnered support across the political spectrum. It was supported by the National Border Patrol Council — the union representing the men and women who protect our border. Despite some imperfections, the deal represented a significant step forward, embodying the essence of compromise and cooperation that is foundational to American democracy.” (Laura Gillen, “We Must Secure Our Borders, Reform Immigration Now,” [Long Island Herald](#), 5/3/24)

In January 2024, Gillen Tweeted In Support Of The Senate Border Bill, Calling It “Bipartisan” And Accusing House Republicans Of Not Wanting To Address The Border Crisis And Wanting To Use The Crisis To Help Themselves Get Re-elected After House Republicans Said The Bill Was Dead On Arrival. The Senate Border Proposal Would Allow Thousands Of Migrants A Day Before Title 42-Type Authority Would Be Mandated. “A border proposal still being hammered out by Senate negotiators would include a Title 42-type authority that would only be mandated if numbers at the southern border exceeded 5,000 migrant encounters a day -- part of a package already drawing fierce criticism from some conservatives in the chamber, with one GOP lawmaker branding it a ‘stinking pile of crap.’” (Adam Shaw, “Senate Border Bill To Allow 5,000 Migrants A Day Before Title 42-Type Limit Starts; Sparking Conservative Fury,” [Fox News](#), 1/24/24)

The Senate Border Proposal Would Only Mandate Title-42 Authority If The 7-Day Average Is Above 5,000 Encounters. “Linked to that would be a Title 42-style expulsion authority to quickly remove migrants at the border similar to the COVID-19-era authority. Multiple sources said that the use of that authority would be mandated only if there was a 7-day rolling average of above 5,000 encounters a day.” (Adam Shaw, “Senate Border Bill To Allow 5,000 Migrants A Day Before Title 42-Type Limit Starts; Sparking Conservative Fury,” [Fox News](#), 1/24/24)

Joe Biden Supports The Senate Agreement On The Border. “The Biden-Harris Administration strongly supports the bipartisan agreement announced in the Senate that would address a number of pressing national security issues. President Biden has repeatedly said he is willing to work in a bipartisan way to secure the border and fix our broken immigration system. From his first day in office, he has called on Congress to act and over the course of several months, his administration has worked with a bipartisan group of Senators on important reforms and necessary funding. This agreement, if passed into law, would be the toughest and fairest set of reforms to secure the border we’ve had in decades. It will make our country safer, make our border more secure, and treat people fairly and humanely while preserving legal immigration, consistent with our values as a nation. This bipartisan national security agreement would also advance our national security interests by continuing our support for the people of Ukraine and Israel as they defend themselves against

tyranny and terrorism while also providing much-needed humanitarian assistance to civilians affected by conflicts around the world. The Biden-Harris Administration calls on Congress to not delay and immediately pass the bipartisan national security agreement.” (Press Release, “FACT SHEET: Biden-Harris Administration Calls On Congress To Immediately Pass The Bipartisan National Security Agreement,” [The White House](#), 2/4/24)
