- **Perez Claimed Tolls On Interstate 5 Would Be Inevitable.** “Perez said tolls are an inevitable part of a transportation project of this size. She said charging the users of the bridge is better than paying for its construction with a general tax increase. ‘If we do secure additional federal dollars for the replacement, that would reduce the amount we’d need to raise from tolling, and therefore lower the toll rates for bridge users. Achieving that reduction will be my goal,’ said Perez.” (William Seekamp, “3rd District candidates Kent, Perez differ on Interstate 5 Bridge project,” [The Columbian](#), 10/19/22)
