

STATEMENT

Curtis Hertel is a shady political insider who has spent his career getting rich off of Michigan taxpayers. As Governor Whitmer's top lobbyist, Curtis Hertel was in charge of passing the state budget and he used his position to give \$1.5 million in taxpayer funds to a politically connected non-profit through his wife's agency. He resigned the day the budget was signed into law and then immediately accepted a \$100,000 contract from that same non-profit.
